

Table of Content

No.	Title	Page Number
1	Analysis on earthquake databases of Sabah region and its application for seismic design <i>N. S. H. Harith*, A. Adnan, F. Tongkul, A. V. Shoushtari</i>	1
2	Determination of earthquake design ratio for fixed offshore platform due to Aceh earthquake in Malaysia <i>S. Wan Ahmad*, A. Adnan, R. Nazir, N. I. Ramli, M. I. Alil, M. Z. Ramli, K. Muthusamy</i>	6
3	Selection of multiple earthquakes considering vertical ground motion to structures <i>A. Taib, M. Z. A. M. Zahid, M. A. A. Rahim, Ade Faisal, S. Wan Ahmad*</i>	10
4	Site specific seismic hazard assessment for Kuala Lumpur and vicinity from long distance earthquakes <i>A. B. Nabilah*, C. G. Koh, N. A. Safiee, N. N. Nik Daud</i>	15
5	Strength and stiffness distributions of torsional building systems <i>S. M. Noor*, A. Ibrahim, T. A. Majid, R. Keria, S. M. Rhasbudin Shah</i>	21
6	Sensitivity of lift core positions for T-shaped reinforced concrete buildings subjected to seismic loads <i>J. Abdullah, S. S. Zaini¹*, N. Z. N. Azizan</i>	29
7	Static pushover analysis for Koyna Dam <i>N. Z. N. Azizan*, T. A. Majid, F. M. Nazri, D. Maity</i>	33
8	Cost comparison for non-seismic (EC2) and seismic (EC8) design in different ductility class <i>M. Z. Ramli*, A. Adnan, M. A. A. Kadir, M. N. A Alel</i>	38
9	Seismic performance of interior wall-slab joint in tunnel-form building designed to British Standard <i>M. A. Masrom*, M. E. Mohamad, N. H. Hamid</i>	43
10	Preliminary damage assessment due to 2015 Ranau Earthquake <i>T. A. Majid*, A. Adnan, M. I. Adiyanto, M. Z. Ramli, T. C. Ghuan</i>	49
11	Evaluation of overhead transmission tower subjected to predominantly wind loading <i>S. A. Kamarudin*, F. Usman, R. C. Omar</i>	55
12	Case study: post disaster investigation on wind damage for rural housing roofing system in northern Peninsular Malaysia <i>F.A Wan Chik, T. A. Majid*, S. A. S Zakaria</i>	62
13	Numerical simulation on the effect of kitchen house location around rural house using computational fluid dynamics <i>S. N. C. Deraman, T. A. Majid, S. S. Zaini*, W. Y. Tham, M. A. Ismail</i>	68

Table of Content

No.	Title	Page Number
14	Effects of gap height on rural houses using computational fluid dynamics (CFD) <i>W. N. W. Yahya, S. S. Zaini*, T. A. Majid, S. N. C. Deraman, M. A. Ismail</i>	73
15	Experimental optimization of heat-induced convective flows for updraft velocity improvement in tornado-type wind power generator <i>H. Hafizh*, H. Shirato, D. Yui</i>	78
16	Building inventory for seismic risk assessment using unmanned aerial vehicle <i>M. N. A. Alel*, E. T. Mohamad, R. A. Abdullah, M. M. A. Rahman, M. A. A. Kadir, M. Z. Ramli</i>	83
17	Utilization of treated crumb rubber steel fiber concrete (TCRSFC) to improve dynamic performance of concrete column <i>S. N. N. M. Zukri*, M. A. A. Kadir, A. R. M. Sam, M. I. Khiyon, N. Zuhan, M. Z. Ramli, M. N. A. Alel</i>	90
18	Four-dimensional reconstruction of Nepal earthquake displacement from Sentinel-1A satellite <i>M. Marghany*</i>	95
19	Four-dimensional of tsunami disasters effects utilizing hologram interferometry of satellite data <i>M. Marghany*</i>	101
20	Multi-objective optimization evolutionary algorithm for investigation of fake MH370 debris <i>M. Marghany*</i>	108
21	A short review on pedestrian wind assessment techniques in urban area <i>Y. M. H'ng, S. A. Zaki*, N. H. Ahmad, Y. Yusup</i>	114
22	Modeling of structural deformation of staff quarters hospital Ranau subjected to the 2015 Ranau earthquake using Ruaumoko 2D <i>A.G. Kay Dora*, T. Mohd Azuan, I. Izzaidah</i>	121
23	Seismic assessment of staff quarters hospital Ranau subjected to 2015 Ranau earthquake using fragility curve <i>T. Mohd Azuan, A.G. Kay Dora*, R. Norazila</i>	126
24	Palm oil clinker: a potential partial sand replacement in brick production <i>K. Muthusamy*, M. F. S. Ali, M. N. A. A. Zawawi, N. Nordin, S. M. S. Mohsin, N. F. Ariffin</i>	132
25	Vulnerability study of existing buildings due to seismic activities in Sabah <i>M. N. A. Mansor*, L. C. Siang, A. Ahwang, M. A. Saadun, J. Dumatin</i>	137
26	Seismic performance of reinforced concrete school buildings in Sabah <i>H. Sovester, M. I. Adiyanto1*</i>	148
